1. PALO ALTO UNIVERSITY PROFILE

1.1 Overview

Palo Alto University (PAU) is a private, independent university, located in the San Francisco Bay Area. It was founded as the Pacific Graduate School of Psychology (PGSP) in 1975 when it began educating doctoral students in clinical psychology. The institution's name was changed in 2009 to reflect the broadening of its mission to include undergraduate students. PGSP remains the graduate school of Palo Alto University.

Established to serve society, PAU is a diverse learning community dedicated to the search for knowledge and its dissemination. PAU brings together a community of highly talented faculty and students working side-by-side to bring scientific rigor and theoretical knowledge to the analysis and practice of psychology and the social sciences.

The PAU community supports varying world views, broad cultural and professional backgrounds, and a wide range of alternative perspectives. PAU trains students to work in a range of settings with a broad spectrum of individuals and organizations. With a focus on high-quality academic advising and student support services, the programs nurture students to develop as individuals within a larger professional community.

PAU is committed to the integration of professional ethics with professional practice. The excellent faculty, low student/faculty ratio, and rigorous academic programs ensure the quality teaching and mentoring necessary to produce outstanding graduates.

1.2 Core Purpose

The core purpose at PAU is to expand the frontiers of psychological science and related social sciences.

Faculty, students, administrators, trustees, alumni, and staff are committed to fulfilling the core purpose by assuming responsibility for their vital and varied roles at PAU. Trustees establish policy and steward the quality and integrity of the institution; faculty creates and maintain academic programs that define the quality and character of the institution; faculty and students actively engage in research, scholarship, and instruction; and the administration and staff oversee facilities and learning resources. All contribute to an educational environment conducive to teaching, learning and working. The entire community is dedicated to the intellectual, personal, and professional development of its members and the pursuit of academic integrity.

1.3 Core Values and Guiding Principles

The Palo Alto University is a diverse educational community committed to:

- The integration of scientific research and practice.
- Excellence in the transmission of knowledge about psychology and the social sciences.
- Excellence in the integration of psychology and business practices.
- Excellence in the delivery of effective ethical and compassionate mental health services.
- Integrity, honesty, and personal responsibility in our endeavors.
- Respect for self and others.

2. INSTITUTIONAL AND PROGRAM ACCREDITATION

The Palo Alto University (PAU) is a private, independent university. PAU has been accredited by the WASC Senior College and University Commission (WSCUS) since 1987. Information regarding PAU and WSCUS may be obtained at:

WASC Senior College and University Commission (WSCUC) 985 Atlantic Avenue, Suite 100 Alameda, CA 94501 (510) 748-9001 www.wascsenior.org

The National Register of Health Service Providers in Psychology has approved listing Pacific Graduate School of Psychology at Palo Alto University as a Designated Doctoral Program in Clinical Psychology and PGSP graduates are eligible for application to the National Register's Directory

The PGSP Ph.D. Program in Clinical Psychology has been accredited by the American Psychological Association (APA) since 1988.

The PGSP-Stanford Psy.D. Consortium training program has been accredited by the American Psychological Association (APA) since 2006.

Documents describing licensing, approvals to operate, accreditation of PAU by WSCUS and APA are available in the PAU Library. Information regarding accredited programs can also be obtained by contacting APA directly at:

Office of Program Consultation and Accreditation American Psychological Association (APA) 750 1st Street, NE, Washington, DC 20002 Phone: (800) 374-2721 or (202) 336-5500

3. UNDERGRADUATE PROGRAM DESCRIPTIONS

Palo Alto University grants Bachelor of Science (BS) degrees in two majors, Psychology & Social Action and Business Psychology, rather than Bachelor of Arts (BA) degrees. BA degrees are liberal arts degrees, consisting of lower level general education classes, a concentration of some 10 to 15 classes in a particular major, and elective courses, which can be taken in any discipline. The goal of a Bachelor of Arts degree is to provide students with a general set of college-level academic skills, in-depth exposure to a particular discipline and then the opportunity to "liberate" the mind by taking a variety of elective courses. A Bachelor of Science degree is much more focused. Students complete the same general educations requirements as for the BA degree, and the same major requirements. But instead of taking electives, students take another set of courses that complement the major. In the BS in Psychology & Social Action program at PAU, students, who have completed their general education requirements at a local community college, transfer to PAU and take 12 upper-level courses in Psychology, 10 upper-level courses in related Social Sciences, such as Anthropology, Sociology, Politics, Economics and Philosophy. They also complete a required 9 month internship. There are no electives. In the BS in Business Psychology program, students who have completed their general education requirements at a local community college, transfer to PAU and take 14 upper-level courses in Business and another 10 upper-level courses in Psychology and related Social Sciences. A Bachelor of Science degree is not a "science." It is a much more focused degree than a Bachelor of Arts degree. However, psychology is considered a science, because it rigorously explores human behavior using the scientific method and because the interventions that psychologists employ are based on scientific research and evidence from such research.

3.1 Degree Format

The PAU undergraduate degrees in Business Psychology and in Psychology & Social Action are offered only in a full-time format. They are taught during the day and on campus at PAU's partner institutions, De Anza College, Foothill College and the College of San Mateo. They are also taught in a Hybrid format, in which students complete 3 courses per quarter over 8 consecutive quarters. One class is completed each quarter on the campus of De Anza College one evening per week, and two other classes are completed each quarter online. Both majors are also offered in a fully online format, in which three courses per quarter are taught online for eight consecutive quarters.

3.2 Time to Completion

The PAU undergraduate programs are degree completion programs designed for students who transfer from a California Community College, where they will have completed 60 semester or 90 quarter unit hours of college level course and the California State University General Education pattern. They then complete two years and 96 quarter unit hours of full-time course work at PAU, leading to the Bachelor of Science degree. 77% of PAU students complete their Bachelor degree in two years.

3.3 Teaching Methods

PAU operates on a 12-week quarter system. Students enrolled in a Day program attend classes on the campus of one of PAU's partner institutions. They attend class Monday through Thursday between the hours of 9 am and 3 pm. Attendance and participation in classes are required. Students in the Hybrid program attend class one evening per week at De Anza College during the two years of their program, and they complete two other courses in an online format, using PAU's Canvas Learning Management System (LMS). They have courses for eight consecutive quarters including two 10 week summer quarters. Students in the online program complete three online courses per quarter for eight consecutive quarters.

3.4 Advisors

All undergraduate students are assigned to a Faculty Advisor, who is an instructor in their program. The Academic Advisor provides academic and career counseling and serves as the first level of contact in case of academic or personal difficulties.

4. BUSINESS PSYCHOLOGY PROGRAM DESCRIPTION

The PAU Bachelor of Science major in Business Psychology is a 2 year degree completion program for students who have completed 90 quarter unit hours or 60 semester unit hours of transferable college credit from an accredited college or university. The Business Psychology major provides two years of upper-level, undergraduate coursework in psychology, business, and related courses. The goal of the Business Psychology program is to provide a strong foundation in business administration and psychological principles related to business, which ensure that graduates of the program have an ability to apply the science of human behavior to practical business problems. The curriculum includes courses in business administration, human behavior, psychology, sociology and human resources with a focus on practical applications.

Graduates from the Business Psychology program are prepared to enter careers in Management, Human Resources, Marketing and Sales, Organization Development or Consultants, or to prepare students for further education towards a Masters or Doctorate Degree.

4.1 Degree Requirements

Completion of 96 quarter units of upper division psychology, business, and social science courses is required. All courses in the major are required. A total of 186 quarter units of undergraduate courses (90 units of transferable credit and 96 units completed in the PAU program) and completion of the Major Field Test in Business are required for graduation, with an overall Grade Point Average of 2.00 or better. Students must also obtain grades of C or higher in each of the core courses listed below.

4.2 Business Psychology Educational Objectives/Outcomes

The Business Psychology curriculum and its specific educational objectives was developed using input from professionals in the field, by examining the curriculums of other, top ranked institutions for benchmarks, and by incorporating the recommended learning outcome standards of nationally recognized professional associations, notably the American Psychological Association and the Society for Industrial and Organizational Psychology. The learning outcomes for the degree are:

- Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- Develop strategies for problem-solving and decision-making using business analytics.
- Respect and use critical and creative thinking, skeptical inquiry, and, when possible, the scientific approach to solving problems related to consumer behavior and mental processes.
- Understand the theory and application of issues regarding the nature and process of group development and organizational dynamics.
- Understand the theory and application of financial and management accounting.
- Understand and apply the principles of market research and marketing.
- Understand and apply psychological principles to personal, social, and organizational issues.
- Value empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the

underpinnings of business and psychology.

- Demonstrate information competence and the ability to use computers and other technology for many purposes.
- Communicate effectively and professionally in a variety of formats.
- Develop insight into their own and other's behavior and mental processes and apply effective strategies for self-management and self-improvement and career development.
- Develop strategies to implement psychological knowledge, skills, and values in occupational pursuits.

4.3 Business Psychology Curriculum

<u>CORE COURSE REQUIREMENTS</u> (core courses must be passed with a grade of C or better)

- BUSI302 Business Writing Fundamentals
- BUSI303 Business Communication
- BUSI309 Organizational Behavior
- BUSI310 Employee Motivation and Satisfaction
- BUSI320 Fundamentals of Management
- BUSI340 Human Resource Management
- BUSI381 Career Planning and Development
- BUSI383 Introduction to Marketing
- BUSI395 Fundamental of Accounting and Finance
- BUSI405 Information Technology Management
- BUSI406 Senior Seminar
- BUSI410 Consumer Behavior Analysis
- BUSI412 Corporate Accounting and Finance
- BUSI430 Business Ethics
- BUSI490 Senior Internship (Students have the option of taking 2 quarters of Sr. Internship or 2 other courses)

NON-CORE COURSE REQUIREMENTS

- ANTH351 Multicultural Studies
- ECON400 Global Economics
- MATH325 Research Methods & Data Analysis
- PSYC320 Social Psychology
- PSYC325 Psychology of Leadership and Team Development
- PSYC331 Theories of Personality and Assessment
- PSYC365 History of Psychology
- PSYC440 Human Behavior/Interpersonal Effectiveness
- PSYC381 Developmental Psychology (Alternate course to 1st quarter Sr. Internship)
- MGMT400 Strategic Management & Negotiation (Alternate to 2nd quarter Sr. Internship)

A sample sequence of courses in the two-year program, all of which are required, would be:

Business Psychology Senior Internship

The BP Senior Internship is an optional 2 quarter pre-professional experience in which students will work a minimum of 8 hours per week in a company or organization and where they will practice activities related to the BP curriculum and learning outcomes. The senior internship provides students with an opportunity to practice the theoretical materials they have studied in class. It provides them with a preprofessional experience that will assist students in their entry into a professional field or in their application to graduate school. At their internship, students will receive supervision from a professional at the internship organization and from the BP internship coordinator, who is a PAU faculty member and who will assign them a grade. Student interns are required to complete a weekly internship journal and two papers at the conclusion of each quarter. Students are responsible for finding their own internship, which must be approved in advance by the BP internship coordinator.

Business Psychology Senior Seminar

The BP senior seminar course is a topics course, the theme of which changes each year. One or more experts in a particular field of business and psychology will teach the course, bringing their knowledge and expertise to the topic. Students will examine these topics in great depth, using the knowledge and skills they have developed in the two years of the BP program and they will demonstrate their mastery of the program learning outcomes through some form of senior project.

5.0 PSYCHOLOGY AND SOCIAL ACTION PROGRAM DESCRIPTION

The Bachelor of Science in Psychology and Social Action program is a two year degree completion program designed for students who have completed 90 quarter units or 60 semester units of college course work and their general education requirements from an accredited college or university. The program provides two years of upper-level, undergraduate course work in psychology and related social science courses. The program is built upon the theme of "The Science of Social Action in a Global Community." This theme brings together several critical elements. Psychology is the science of human behavior. The focus on social action emphasizes the manner in which we impact others and can bring about social change. Understanding human behavior involves not only psychology but also a range of other perspectives that place the behavior in a social, cultural, ethnic, political and economic context. Both the psychology courses and the other social science courses in the Bachelor of Science program are designed to provide students with perspectives and skills to become effective agents of social change in their personal and professional lives. In the BS in Psychology & Social Action program at PAU, students take 12 upper-level courses in Psychology, 10 upper-level courses in related Social Sciences, such as Anthropology, Sociology, Politics, Economics and Philosophy. They also complete a required 9 month internship. There are no electives

5.1 Degree Requirements

Completion of 96 quarter units of psychology and social science courses, including coursework in Anthropology, Biology, Philosophy, Intercultural Studies, Political Science, Sociology, Economics and a three-quarter long Internship. A total of 186 quarter units of undergraduate courses (90 units of transfer credit and 96 units completed in the PAU program) and the completions of the Major Field Test in Psychology are required for graduation, with an overall Grade Point Average of 2.00 or better. All coursework in the PAU undergraduate programs is required. There are no elective courses. To graduate, students must also obtain grades of C or higher in all of the Core Courses, which are all of the Psychology courses

5.2 Psychology and Social Action Educational Objectives/Outcomes

- Students will develop knowledge of the most current theories and findings in psychology to understand human behavior.
- Students will have a knowledge of how biological and social factors influence human behavior.
- Students will have a knowledge of how cultural factors influence both individual and social behavior.
- Students will develop knowledge of how economic and political factors influence behavior.
- Students will have a knowledge of how research helps one identify effective processes of behavior change.
- Students will develop an understanding of how organizations of social change operate.
- Students will develop practical skills through coursework and internships to become effective agents of behavior and social change.
- Students will have a personal support system in the form of core and adjunct faculty and graduate student teaching assistants.

5.3 Psychology and Social Action Curriculum

<u>CORE COURSE REQUIREMENTS</u> (core courses must be passed with a C grade or better)

- PSYC300 Psychological Writing
- PSYC310 Psychology of Learning & Memory
- PSYC320 Social Psychology
- PSYC330 Theories of Personality
- PSYC340 Research Design & Methods
- PSYC360 Psychology of Gender

Psychology and Social Action Internship

Students in the Psychology and Social Action major are required to complete a 9 month, credit-bearing internship at a community agency, which will provide the student with practical experience in the application of the theoretical materials they have studied in class. Students may also satisfy their internship requirement by doing research for an equivalent number of hours. The internship involves approximately 8 hours of work per week over three-quarters. The internship provides students with work experience in an area where psychology is applied to real world problems. The internship also provides valuable professional experiences that will assist the student with their entry into a professional field or in acquiring admission to a graduate program. During their internship, students receive supervision from a professional who is on site, and they receive support in making the links between their internship experience and their coursework by the PAU Internship Coordinator, who will assign them a grade for the internship.

Psychology & Social Action Senior Seminar

The PSA senior seminar course is a topics course, the theme of which changes each year. One or more experts in a particular field of psychology and social action will teach the course, bringing their

knowledge and expertise to the topic. Students will examine these topics in great depth, using the knowledge and skills they have developed in the two years of the program and demonstrating their mastery of the program learning outcomes.

6.0 ACADEMIC REQUIREMENTS POLICIES AND PROCEDURES

6.1 Academic Progress

All students must maintain a cumulative grade point average (GPA) of 2.00 to be in satisfactory academic standing. Should a student's GPA fall below 2.00, they will be placed on academic probation and must raise their GPA to satisfactory standing in the subsequent 2 quarters. Should a student continue to be on academic probation for three consecutive quarters, they may be dismissed from the program. Only students who have completed all required courses, with a cumulative grade point average of 2.0, and grades of C or higher in core courses for the major will have satisfied the requirements for graduation.

6.2 Credit Hour Policy

At Palo Alto University credit hour assignments for academic coursework must comply with the definition and assignment of credit hours according to federal regulations as specified in the WSCUC Credit Hour Policy (July 2011):

"Except as provided in 34 CFR 668.8(k) and (l), a credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than –

(1) One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time;

or

(2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours."

Palo Alto University program directors and program curriculum committees must regularly review credit hour assignments for each course within their curriculum. The assignment of credit hours at Palo Alto University depends on upon the format of the class:

- 1. For courses that *do not include* laboratory work, formal discussion groups, practica, or other out-of-classroom supervised training, each credit hour assigned implies one hour of direct, face-to-face faculty instruction and at least two hours of out-of-class student work each week for no less than ten weeks in an academic quarter.
- 2. For courses that *do include* laboratory work, formal discussion groups, practica, or other out-of-classroom supervised training, credit units for direct face-to-face faculty instruction are calculated as in #1. Each additional credit hour assigned for lab or other supervised activity associated with the course is awarded for a combination of one hour of academic

activity occurring under the direction of a faculty member, teaching assistant, or clinical supervisor approved by Palo Alto University, plus an additional two hours of out-of-classroom student work, each week for no less than ten weeks in an academic quarter.

3. Credit hour assignment for PAU courses in which face-to-face contact with an instructor represents less than one-third of the total required academic work per week, for example, courses offered in an online or technologically-mediated instructional format, requires special justification and review by the appropriate program director and curriculum committee. Such review must establish that each credit hour assigned is equivalent to three hours of academic work per week per quarter.

Grade Point Average

Grade Point Averages are calculated using the following formula:

Unit hours per course X Numerical Grade	=	Quality points for per course
Quarter Grade Point Average	=	Sum of all Quality points for the quarter Sum of Unit hours attempted that quarter
Cumulative Grade Point Average	=	<u>Sum of all Quality points</u> Sum of all unit hours attempted

6.3 Grading Policy

Students are evaluated throughout their undergraduate career on their knowledge of theoretical concepts, awareness of relevant research findings, and ability to synthesize, communicate and apply knowledge. Student evaluations are based on direct observation of performance. In course work, the recommended method of evaluation is for faculty to assess knowledge thru examinations, papers, projects and presentations. All classes also include an experiential component, with a portion of the course grade based on class attendance and/or participation. In online courses, student participation is measured by responses to discussion questions, posts, online discussions, attendance at faculty office hours, etc. Faculty members are encouraged to provide feedback to students early in each quarter and will issue a warning to any student who is not performing at a satisfactory level. Grades are reported for all students at the end of each quarter. Individual instructors develop their individual evaluation and grading system based on each student's mastery of the learning objectives for the course.

The following grading system is used at PAU to derive the Grade Point Average and is based on the 4.00 system:

P/F = Pass/Fail	IN = Incomplete	R = Repea	ated Course	W = Official Withdrawal
	B- = 2.7	C- = 1.7	D-=0.7	
A-= 3.7	B = 3.0	C = 2.0	D = 1.0	
A = 4.0	B + = 3.3	C + = 2.3	D + = 1.3	F
Exceller	nt Good	Satisfactory	Unsatisfac	ctory Failure

6.4 Incomplete Grade

The grade of Incomplete (I) is assigned in those cases where the requirements for a course have not

been completed by the end of the quarter for justifiable reasons or in extraordinary circumstances beyond the student's control, such as illness, family emergence, etc. Incomplete grades a re reserved for situations in which a student has an outstanding project or exam that they are unable to complete prior to the end of the quarter. Incompletes are not designed to allow students to complete a course that they have not been attending or for which they have done little or no work. Students in such a situation should withdraw from the course and take it again. The decision to issue an incomplete grade is left to the judgment of the professor. The grade of Incomplete becomes an "F," administratively assigned unless the work is completed by the deadline set by the instructor. <u>This</u> <u>deadline can be no later than the last day of classes for the quarter immediately following the term</u> <u>in which the "Incomplete" was assigned.</u>

(a) Requirement for Incomplete: For an "I" (incomplete rather than an "F) to be given, a student must have been in attendance for at least 75% of the class meetings, must have satisfactorily completed 75% of the work for the class (as defined by the instructor), and must make arrangements with the instructor regarding how and when the work will be completed.

6.5 Core Course Grade Requirements

For psychology and business courses, which are major or core requirements in the two undergraduate majors, students are required to obtain a grade of C or higher to pass the course. For the upper-level non-core courses, a grade of D- or above is considered a passing grade. In courses for which the student has not earned a passing grade, the course must be repeated until a satisfactory grade is achieved. In cases where a course has been successfully repeated, the higher grade and credit will be used in calculating the cumulative Grade Point average, although a record of the original grade for the course will remain on the student's transcript along with the designation "R" (repeat). Credit can only be earned one time for a course.

6.6 Grade Appeals Process

The PAU administration, following legal and academic freedom precedents, may not overrule an academic evaluation by a member of the faculty so long as that evaluation has been given within the scope of the course, in good faith and on an academic basis. Students, who believe that a grade may have been assigned for non-academic reasons, may appeal such a grade.

Informal Procedure: When a student is dissatisfied with a grade that he or she has received in a course, their first step must be to meet with the instructor for clarification and review of the grade within five (5) days of receipt of the grade. If no resolution is reached, students may use the formal procedure described below.

Formal Procedure: If a student believes that non-academic criteria have been used in determining his or her grade, or that the instructor is in error or has otherwise breached PAU policy in assigning a grade, the student may appeal the instructor's evaluation in writing to their Program Director within five (5) days of completing an attempt at an informal resolution of the matter.

The appeal must specify the nature of the disagreement and include copies of all documents supporting the grievance. The student bears the burden of showing that non-academic criteria were used, that an error was made or that PAU policy was otherwise breached. The instructor will be given an opportunity to respond. All documents will be shared with both the student and the instructor. Should the Program Director feel that an independent evaluation of the student's work is warranted, he/she may request such an independent evaluation by a qualified professor from either

PAU or from outside of the University.

The student, the instructor, and the Registrar will be notified in writing of the decision by the Program Director within fifteen (15) days of receipt of the appeal. Retaliation for the filing of a grade appeal is strictly forbidden.

6.7 Textbooks

Students are free to purchase or rent new or used books, E-books and other class materials wherever they choose. Students often purchase textbooks from online sources including Amazon, Barnes and Noble, Guilford Press, and others. To allow students to begin course readings before the first day of class, and to mitigate unanticipated shipping delays, instructors are requested to provide their required texts to the Undergraduate Program Office at least four weeks before the date of the first class meeting. Textbook lists will be distributed electronically to students as early as possible.

Course syllabi and auxiliary instructional materials should be posted on a course shell in the Canvas Learning Management System. Instructors are required to create course shells for their courses.

6.8 Registration Requirements

All students must register for classes before the start of each quarter. Students are not officially registered and may not attend class until all required tuition and fees are paid.

Students register online at <u>http://my.paloaltou.edu</u> with their PAU user ID and password. The online registration service allows students to browse the course schedules, register for courses online and view their academic records.

Students who fail to register by the published deadline will be assessed a late registration fee when they register.

Students who do not register by the first day of the quarter are subject to dismissal from the program, and will be dismissed if they have not registered by the end of the Add/Drop period. The reinstatement fee is \$300.00. However, reinstatement is not guaranteed.

6.9 Transcript Request

Palo Alto University has given the National Student Clearinghouse authorization to provide transcript ordering via the web. To order official transcript login to the National Student Clearinghouse.

Place Transcript Order

Official Transcripts are \$4. When placing your transcript order through the Clearinghouse, you will select Palo Alto University; you will need to enter either your student id# or social security # (both fields are shown, but only <u>one</u> is required for your order). Proceed to fill in the rest of the required information.

For more information on ordering your PAU transcript visit: <u>PAU Office of the Registrar</u>

6.10 Continuous Enrollment Policy

To be matriculated as a student of Palo Alto University, a student must be "continuously enrolled' in his/her academic program, with only the following exceptions: if the student is in receipt of written approval from the University for a leave of absence for a defined period or academic quarter(s); or the student is in receipt of an approved "Continuous Enrollment Waiver" form.

"Continuously enrolled" means that the student must be enrolled according to the requirements of their program and has paid all tuition and fees in full.

Continuous enrollment is defined based on program requirements. Failure to register and pay tuition and fees for any one of the quarters in which the program is in operation without approval in writing for a leave of absence or a continuous enrollment waiver is a violation of this policy. Note that not all faculty or courses are available to students in all quarters, so students should plan accordingly if they do take a leave of absence.

Enrollment Requirements for the Undergraduate Programs

PAU undergraduate students, who are enrolled in the Day program, must be enrolled Fall, Winter & Spring quarters. PAU undergraduate students, who are enrolled in the Hybrid or Online program, must be enrolled Fall, Winter, Spring & Summer quarters.

6.11 Undergraduate 2016 / 2017 Tuition

Students assume responsibility for all costs incurred as a result of enrollment at Palo Alto University. It's the student's responsibility to be aware of their account balance and financial aid information and maintain current valid address information at all times to ensure receipt of all University correspondence in a timely manner.

	Day Program (3 quarters) Quarter	Hybrid/Online Program (4 quarters) Quarter	Annual
Tuition	\$5,704	\$4,278	\$17,112
Fees	\$1,732	\$1,299	\$5,196
Total Tuition & Fees	\$7,436	\$5,577	\$22,308

PAU's tuition and fees are charged at a flat rate equally divided by 3 quarters for the Day programs and by 4 quarters for the Hybrid and Online programs. The number of credit hours may vary from quarter to quarter. However, the tuition remains the same for each quarter.

The PAU undergraduate programs are full-time programs that students complete in two years. For exceptional reasons and with approval from the Program Director, a student may request to be part-time (temporarily) during a quarter. Students enrolled in less than 12 units will be charged a per unit rate. The per unit rate is calculated by dividing the total cost of the program by the number of units required to complete the program.

2016-2017 Per Unit Rate

\$22,308 x 2 = 44,616 / 96 = \$464.75 per unit

Financial assistance is available to eligible PAU Undergraduate students. For more details and all financial aid policies, please refer to the PAU Catalog or: <u>www.paloaltou.edu/admissions/admissions-resources/financial-aid-and-scholarships</u>.

6.12 Refunds and Repayments

A student withdrawing from a class or classes may be eligible for a refund. Refunds are based on the date of official withdrawal notification as determined by the Registrar. Students withdrawing after the

refund period are responsible for 100% of tuition and fees.

Term-specific dates are shown below:

Date Last Attended Class	Refund Calculation Rate
Through the first week of the quarter	100%
During the second week of the quarter	90%
During the third week of the quarter	80%
During the fourth week of the quarter	70%
During the fifth week of the quarter	60%
During the sixth week of the quarter	50%

- Fees are not refundable
- Admissions deposits are not refundable

Full-time students (student's enrolled in 12 or more units) at PAU are billed at a flat rate for their tuition and fees. If a student drops a class or classes and is still enrolled in 12 or more units, the tuition and fees are not reduced. The flat rate tuition is the same for 12 units or 15 units.

Any tuition refund must first be applied to all debts owed to PAU and financial aid programs. If refunds are due to the student, a check will be issued after application of the refund to any and all charges remaining on the account. The refund procedure may take up to two weeks.

6.13 Return of Federal Funds when Tuition and Fee payments are from Financial Aid

Students receiving financial aid and who withdraw or drop all courses during the quarter should be aware of Refund and Repayment Policies and the impact these policies will have on current financial aid and continuing financial aid eligibility. Refund and Repayment policies for financial aid students are determined by the Higher Education Title IV refund regulations from the Department of Education not the institutional refund policy shown above. Contact the PAU financial aid office for more details.

For more information, please refer to the university <u>catalog</u>

6.14 Course/Faculty Evaluation

Students are asked to complete a Faculty/Course Evaluation at the end of the quarter for each of their courses. The instructor's performance and the course content are both evaluated. These evaluations provide important feedback to each instructor about how to improve their courses. Student comments are communicated to the instructor and to the Program Director. Student evaluations of faculty are anonymous to insure honest feedback, and at no time are individual student responses made available to a faculty in a manner that identifies the student making the comment.

6.15 Student Annual Evaluation

Each year, PAU conducts an annual student survey to assess students' satisfaction with their academic program and the student services at PAU. The results of this evaluation are shared with the university administration and the Board of Trustees to identify areas for improvement.

6.16 Course Load

The PAU Bachelor of Science program is designed to be a full-time program that students will complete in two years: 6 quarters in the Day program, and 8 quarters in the Hybrid and Online program. A full- time course load is 4 courses per quarter for 15 -16 unit hours in the Day program and 3 courses or 12 unit hours in the Hybrid and Online program. For exceptional reasons and with the approval of the Program Director, a student may request dropping to part-time status during a quarter. They will be charged prorated tuition for the units they take. Students who drop to part-time status will be required to make up the course(s) they miss in the following year. Students who drop to part-time status may risk losing their financial aid or having their financial aid reduced as a condition of most forms of financial aid is that a student is enrolled at least half-time.

6.17 Repeating Courses

Courses in the PAU undergraduate programs, which students have passed, may not be repeated to obtain a higher grade. All courses in the PAU undergraduate programs are required. Students, who fail a course(s) or who fail to obtain a grade of C or higher in core courses, must repeat the course(s) when it is offered again. Students who repeat a course while they are a full-time student, because PAU is a flat fee institution, will not be charged additional tuition for a repeated course. The exception to the flat-rate tuition is when a student has withdrawn from a quarter or taken a leave of absence and receives a full or partial tuition refund. In that case, when a student returns to PAU and adds a course on top of the normal full-time load, they will be charged per credit rate for the additional course. Students, who repeat a course(s) and who are not enrolled full-time, will be charged tuition on a per unit basis. The passing grade that students obtain when repeating a course will be used in the calculation of the grade point average. The original grade remains on the transcript with the designation "R." Courses are only counted once in terms of credit towards graduation.

6.18 Attendance

Students are required to attend all class sessions. Students, who miss an excessive number of class sessions and/or fail to turn in assigned work, risk receiving a failing grade for the course as a result of their inability to participate and should consider withdrawing. In which case, they will be required to take the class again to fulfill the requirement. Students who are absent from class because of illness should obtain medical certification of their illness. Under such conditions and with a medical excuse, the student may be allowed to make up missed work. Without a medical excuse, professors have no obligation to allow a student to make up missed work.

6.19 Graduation Requirements

Students must complete 186 quarter unit hours of credit to obtain the Bachelor of Science Degree in Psychology & Social Action or Business Psychology (90 quarter unit credits of transfer credit and 96 quarter unit credits completed at PAU). Only courses for which a student has received grades of C or higher in major or core requirements and grades of D- or higher in other courses will be counted towards graduation. Passing grades are required in all courses required for the degree. Core courses in which a student has received a grade of C- or below, must be repeated until a grade of C, or higher is achieved. Students must have a cumulative grade point average of 2.0 or above to graduate. Students must also take the Major Field Test in Psychology or Business in the final quarter of their studies.

6.20 Major Fields Test

The Major Field Test (MFT) in Psychology and Business are national examinations that assess mastery of concepts, principles, and knowledge by graduating psychology and business psychology students. The tests consist of multiple-choice questions drawn from the courses of study most commonly offered in undergraduate programs within the broadly defined fields of psychology and business. Graduating seniors in the PAU undergraduate programs are required to take the MFT in their final quarter of studies. The results of the MFT are used to assess student achievement of the learning outcomes of the Bachelor degree programs and to compare these to other university programs across the country.

6.21 Undergraduate Course Descriptions

Please refer to University Catalog

7. INTERRUPTIONS OF DEGREE PROGRAMS

7.1 Leave of Absence

A student, who discontinues their studies at PAU with the intention of resuming during a later quarter, must file a Leave of Absence Request. Leave of Absence Request forms are available on the student portal: <u>http://my.paloaltou.edu</u> Leave requests are granted for only one quarter at a time and must be renewed if additional time is needed.

Leaves can be granted from one quarter up to one academic year depending on the circumstances. Students who consider taking a Leave of Absence (LOA) must discuss the reasons with the Director of their program. Students receiving financial aid are responsible for communicating an impending LOA with the financial aid office, and they should consult the financial aid office concerning the implications of a LOA on their current financial aid award

For financial aid purposes, a Leave of Absence may be no longer than 180 days. Students who do not resume studies at the conclusion of the 180 days are reported to their lenders as withdrawn as of the last day of attendance, and their student loan will go into re-payment.

Leave of Absence – Medical: Documentation is required for a medical leave of absence. Typical reasons for which students request a medical LOA include psychological problems, arrival of a child or other health related issues. Medical documentation (when appropriate) supporting the request for the LOA must be submitted by the student. Students returning from a medical LOA must submit documentation from their attending physician, releasing them to resume their studies.

Administrative Leave: Notwithstanding any other policy, PAU reserves the right to place a student on administrative leave in response to disruptive or other behaviors that interfere with the PAU/De Anza/Foothill and CSM communities. In instances where PAU believes that the behavior may be caused by, or related to, psychological or other health issues, the student may be required to undergo a mandatory independent psychological or medical evaluation. Temporary or indefinite administrative withdrawal and/or other administrative action as deemed appropriate may be taken. Such action must

be approved by the Provost or his/her designee, with possible consultation by others.

7.2 Dismissal from Program

The Student Evaluation Committee (SEC) (comprised of designated faculty members) will meet as necessary, to address problems of a disciplinary nature including academic performance (see grading policies elsewhere in this Handbook), ethical violations, and other behaviors that are not in compliance with University standards and guidelines. Students will be notified five (5) days prior to being called before the SEC that they must appear before the SEC and will be given a written explanation as to the reason he/she has been summoned or may be dismissed from the Program. The student will be given the opportunity to address his/her possible dismissal and provide an explanation to the SEC about their behavior/performance.

7.3 Course/Program Withdrawal

The PAU Bachelor of Science programs have a fixed schedule of courses, all of which are required to obtain the Bachelor of Science degree. Courses are generally offered only one time per year. Should a student withdraw from a course, they will be required to take the course again in the following year for an additional fee. Students who are unable to complete a course on time are encouraged to request an "I" incomplete grade and to work with the professor to complete the course work prior to the end of the next quarter. Courses in which an incomplete grade has been granted must be completed by the end of the next quarter, or the grade of F will be automatically assigned.

(a) Routine Withdrawals: A student may withdraw from a class once the Add/Drop period has ended at any time up to the last day for permitted withdrawals as designated in the academic calendar. No credits will be earned for a class from which s student has withdrawn, and the grade of "W" will appear on the student's transcript. The credit hours for the course will not be used in calculating a student's GPA. There will be no tuition refund for courses from which a student withdraws during the quarter.

(b) Request to Withdrawal after the Deadline Date: Withdrawal requests after the deadline for withdrawal, but before the end of the quarter, will be considered in extenuating circumstances. The instructor and Program Director will determine whether a withdrawal should be granted. Students who fail to withdraw from a course will receive whatever grade they have earned by the end of the quarter.

(c) University Withdrawal: Students considering withdrawal from the University are encouraged to meet with his/her faculty advisor or the Program Director to discuss the implications of withdrawing. A withdrawal form, available on the student portal (<u>https://my.paloaltou.edu/ics/</u>), must be completed by the student upon his/her decision to leave the program. If a student withdraws after the add/drop date period, a "W" will appear on the student's academic transcript.

(d) Administrative Withdrawal: In cases of extreme or persistent academic or behavioral difficulties, the university will consider the student's permanent dismissal from his/her program. Grounds for such dismissal include but are not limited to the following:

- Failure to maintain academic progress
- Failure to comply with the university's code of conduct and other related policies
- Failure to meet financial obligations
- Failure to correct the deficiencies during the period of Academic Probation

8. PROBATION, SUSPENSION, AND DISMISSAL

Deficiencies in either academic coursework or student conduct may lead to students being placed on probation, being suspended, or dismissed from the program. The procedures for placing students on probation, for suspension, and dismissal are the same. In all cases, PAU will provide written notice of the nature of the problem or charge, a fair opportunity to respond, and the right to appeal any imposed sanction. When charges of unprofessional or unethical conduct are brought, PAU will respect due process rights and will provide written notice of the nature of the charges, a fair opportunity to refute the charges, and the opportunity to appeal.

8.1 Academic Misconduct

Students are expected to maintain the highest professional and ethical standards of conduct in their activities, which are associated with the University and to abide by PAU's policies. Any student who commits, aids, or attempts to commit "academic misconduct" shall be subject to disciplinary action. Academic misconduct includes but is not limited to:

Plagiarism: The inclusion of someone else's product, words, ideas, or data as one's own work. Examples of plagiarism include the taking of any portion of a document, article, or book and representing it as one's own work; the lifting of a well-phrased sentence(s) and including such sentence(s) without crediting the author; including another person's ideas as an example of one's own work. Plagiarism includes using unpublished work as well as published sources; using another's term paper; and handing in work that was taken from a paper purchased from an individual or agency, including internet services. Plagiarism also includes using one's own work from a previous assignment, without the permission of the current instructor and without properly citing this information.

PAU subscribes to Turnitin.com, a computer-based service that checks for originality in submitted papers. Any paper submitted by a student in any program at PAU may be checked for originality to confirm that the student has not plagiarized from other sources. Plagiarism is considered academic misconduct, and may lead to loss of credit, probation, suspension or dismissal from University or even revocation of a degree. It is essential that there be correct attribution of authors from whom facts and opinions have been derived. Faculty have the right to require that student papers be submitted in both written and electronic format, and to submit any paper to a check such as that performed by Turnitin.com.

Cheating: Consists of using unauthorized materials in an examination; looking at another student's test paper to copy answers; supplying questions or answers from an examination to be given, in progress or having been taken; having a person other than the one registered and taking the course stand in at an examination or any other graded activity; collaborating with others on projects where such collaboration is expressly forbidden; and using resources forbidden by a faculty member, such as but not limited to cell phones and other electronic devices.

Fabrication: Submitting a paper, a lab report, computer data, or other academic exercises with falsified, invented, or fictitious information.

Misusing computer software: PAU is the licensee of many computer software packages that are protected by copyright laws. Students must not copy any computer software program or data protected by copyright or by special license. Students must not damage, alter, or remove without permission any software package in the custody of the University or any PAU community member, including students, faculty, or staff. Students must not access another person's email, data or text files without proper permission. Also forbidden are

- Reading, duplicating, copying, removing, or any other unauthorized or misuse of a document, record, book, ledger, file, print out, tape, cartridge, disc, key, or any property maintained by the university.
- Forging or any other unauthorized alteration of a document, record, identification, or any property maintained by any individual(s) or department (s) of PAU.
- Other acts of dishonesty or impropriety occurring in the course of academic activities, such as grade tampering, or obtaining or distributing any part of an exam that has not yet been administered or any information about the exam.

8.2 Student Conduct

PAU maintains standards of conduct for the members of its community. The scope of these standards is limited to the protection and promotion of PAU's educational goals and the preservation of the rights of each of its members. Specifically, PAU must attempt to maintain and protect:

- Freedom of expression and freedom of inquiry for all members of the PAU community, subject to the limitations that such freedom shall not extend to the denial of another's rights nor to attacks on individuals and the PAU community as a whole.
- An atmosphere of mutual respect in which the improvement of opportunities for individual intellectual development is the paramount concern.
- The safety, welfare, and property of all members of the PAU community, and the safety and property of the community itself.

It is the responsibility of each member of the PAU community to support these standards. The standards of conduct do not restrict the right of the faculty to control conduct in the classroom within accepted standards of academic freedom and responsibility.

In addition to violation of the above standards, students may be disciplined for reasons including, but not limited to, the following:

- Forgery, altering PAU documents, or knowingly providing false information;
- Disruption of the educational or administrative process of PAU;
- Physical abuse or destruction of PAU property;
- Physical abuse, including sexual assault or other sex offense, or threat of abuse to other PAU students, employees, or their families;
- Harassment of other PAU students, employees or their families;
- Theft of PAU or community members' property;
- Sale or knowing possession of illegal drugs or narcotics;
- Possession or use of explosives or deadly weapons;
- Lewd, indecent, or obscene behavior on PAU property;

- Soliciting or assisting another to an act that would subject a student to a serious sanction;
- Any action that would grossly violate the purpose of PAU or the rights of those who comprise it.

8.3 Academic Probation

A cumulative grade point average (GPA) of 2.0 or above is considered Satisfactory Academic Progress. Undergraduate students at PAU will be placed on academic probation if their cumulative grade point average drops below 2.0 in any quarter. In such cases, the student will receive written notification of

such probation from their Program Director. A student placed on academic probation is required to meet with the Undergraduate Student Evaluation Committee (SEC), within two weeks of the start of the next quarter to discuss the probation and to develop a plan to address the deficiencies identified. The Student Evaluation Committee consists of 2 professors from the program. The Student Evaluation Committee meets when necessary to evaluate the academic performance of students in academic difficulty and students who fail to make satisfactory academic progress. The Student Evaluation Committee may require that a student attend the meeting to provide more information.

The SEC will review the academic records of students in difficulty and will develop an educational plan for each student. The educational plan will include a summary of any course deficiencies, a schedule for correcting those deficiencies, suggestions for support, including tutoring, advising, and/or recommendations for assessment for a learning difficulty. At the end of the following quarter, the Student Evaluation Committee will once again review each student's progress to determine if the student has successfully followed the educational plan and utilized the support services made available.

Undergraduate students, who are on academic probation for 3 quarters and who have been unable to achieve Satisfactory Academic Progress may be recommended for dismissal from the University. Recommendations for dismissal will be made by the Student Evaluation Committee to the Provost. If the Provost determines that dismissal is warranted, he will forward that recommendation to the President of PAU. The President of Palo Alto University will make the final decision regarding the student's status.

8.4 Suspension

Students who have violated PAU's policies of either Academic or Student Conduct may be suspended from the program. A student is suspended from PAU if the concerns are of such a nature that they cannot be remedied within a short time while remaining as a student. The most typical circumstance for suspending a student would be for unprofessional behavior that requires extended time to address. Suspension typically extends for a specific period of time after which the student may seek readmission by petition in writing to PAU c/o the Office of Academic Affairs. If the student is suspended, the student shall receive NO CREDIT (NC) AND NO REFUND for all currently registered courses and course work.

8.5 Academic Dismissal

In cases of extreme or persistent difficulties, the student's permanent dismissal from the program will be considered. Grounds for such dismissal include but are not limited to the following:

- Academic probation for 3 quarters
- Serious violation(s) of the Standards for Student Conduct

In exceptional circumstances, the behavior may be so egregious that the student will be dismissed

directly from the program without prior probation or suspension. Examples of such circumstances could include actions that constitute a felony or assault or violent behavior. Decisions concerning dismissal are made by the PAU President.

8.6 Suspension/Dismissal Procedures

If ongoing advising is insufficient to remedy the concerns that have been raised in any of three general areas (academic course work, progress towards degree, conduct and professional behavior) any member of the PAU community: students, faculty, administrators, who believe that a student may be in violation of PAU's academic or nonacademic standards of conduct should refer their concerns to their Program Director. Within one week of such a report, the Program Director will convoke the student to a meeting. At this meeting, the charge(s) will be reviewed, and the Program Director will determine if further actions are warranted. If the Program Director feels that the charge(s) are serious, he will convoke the student in writing to a meeting with the Provost. In attendance at this meeting will be the Provost, the Program Director, the person making the charges, the student and, if the student chooses, a person of their choice to serve as an advocate, and any other individuals whose presence the Director feels would assist the process. During this meeting, the Program Director and the Provost will review the charges and any evidence that the concerned parties wish to present. Within two days of this meeting, the Provost will issue a written decision concerning whether the charges warrant no action at that time, probation, suspension, or dismissal. All decisions regarding university dismissal are made by the President of PAU.

8.7 Appeals

A student may appeal a decision of academic probation, dismissal or suspension under the auspices of the Institutional Grievance and Appeals Policies Procedure located in the <u>University Catalog</u>. Students must do so within the quarter following notification of a final decision of probation, suspension, or dismissal.

9. STUDENT SERVICES

9.1 Student Services at College of San Mateo, De Anza, and Foothill Colleges

PAU Undergraduate students have access to some of the student services at De Anza and Foothill Colleges and the College of San Mateo. These include access to the Campus Parking, Campus Center, Cafeteria, Library, and Bookstores. Students, who wish and who are prepared to pay separate course fees, may also register for courses independently at either De Anza, Foothill or the College of San Mateo, providing them with access to all student services. Students attending PAU and who receive financial assistance may not receive financial aid from another institution.

Handicapped Parking: All parking lots at the College of San Mateo, De Anza, and Foothill Colleges have designated blue "Handicapped" parking spaces. Persons with California State DMV disability permits or placards may park in these spaces without purchasing a school parking permit.

9.2 Identification Cards

Student Identification Cards are issued by the Office of Student Services. Cards will be distributed shortly after New Student Orientation. This ID card must be presented when borrowing materials from the Palo Alto University Omar Seddiqui Research Library.

9.3 Health Insurance

All registered students at Palo Alto University are required to have health insurance while attending school here. PAU will provide a Student Health Insurance Plan (SHIP) to ensure that students have affordable, comprehensive health coverage. They will be automatically enrolled in and charged for SHIP, unless proof of other coverage is provided and a waiver is submitted by the Waiver Deadline Date of October 15, 2016.

10. RESOURCES AND FACILITIES

10.1 PAU Research Library

The Research Library, located at the main Palo Alto University campus, exists to meet the educational needs of the institution and to support its instructional, research, and service programs. The Library maintains a highly specialized collection of books, journals, and audiovisual materials, with many in digital format, which are immediately accessible from on-line databases. Services are available to PAU students, staff, alumni, faculty, and friends of the PAU Library.

The Library website, at <u>http://www.paloaltou.edu/about/departments-and-offices/library</u>, publishes current hours and contact information.

Collections

The library contains extensive digital resources, paper volumes of books and journals, and multiple copies of psychological tests used in the assessment sequence are available for students to check out. PAU student dissertations are available in digital format from the Library. The Library also maintains an extensive list of journal holdings at other Bay Area libraries for your convenience. Audiovisual materials include over 500 audiocassettes and more than 200 videotapes and DVD's.

Services

The Research Library offers a full range of resources and services. The reference librarian offers ondemand research assistance and instruction. Access to more extensive collections is made available through <u>interlibrary loan</u>. Students may request up to 10 free interlibrary loan articles or books per quarter.

PAU students may request a one-day pass for the use of Stanford's Cecil H. Green Library from the PAU Library Circulation Desk. The Lane Medical Library at the Stanford University Medical Center is open to everyone. Students with public library cards from the city of Santa Clara or San Jose may borrow materials from the Santa Clara University Library or the San Jose State University Library.

Student Responsibilities: It is expected that PAU students will uphold ethical standards in their use of the Research Library. All materials must be checked out before leaving the library. All materials should be returned on or before the due date, so that other students may have access to them. Telephone renewals are available for most items; students should renew items if they need an extension. Students are welcome to place a hold on materials that are checked out.

Overdue Fines: Library users may renew materials if no one else has placed a hold on the items to be renewed. If the late materials are not returned, a bill will be issued for replacement cost plus fines. All library fines are billed directly to the student's account. If not paid by the end of the quarter a hold is placed on registration for the next quarter.

College of San Mateo, De Anza College, and Foothill College Libraries: PAU undergraduate students have community access to the Campus Library Facilities.

10.2 Setting

Palo Alto University's main campus is located in Palo Alto's rolling foothills, just above Stanford University. The school site includes classrooms and faculty and administrative offices, the PAU research library and student computer labs.

The PAU Bachelor of Science programs are located in several locations: the De Anza College campus in Cupertino, the Foothill College campus in Los Altos Hills, the College of San Mateo campus in San Mateo, and at the PAU campus in Palo Alto. De Anza and Foothill Colleges are approximately 45 miles south of San Francisco and 5 miles west of San Jose. The Foothill/De Anza College District is one of the largest, community college districts in the country with an enrollment averaging 44,000 students.

De Anza College is known for its distinctive architecture that harmonizes with the surrounding community and creates a natural, restful urban campus atmosphere conducive to study. The Foothill campus, located in the "foothills" of Silicon Valley, has a much more rural feel with spectacular views of the surrounding hills and green spaces. The buildings on each campus are a blending of Spanish and modern architecture. Foothill College is the home of the Krause Center for Innovation and a beautiful new Campus Center. The College of San Mateo is located in the northern corridor of Silicon Valley and situated on a beautiful 153-acre site in the San Mateo hills that provides a panoramic view of San Francisco Bay.

The De Anza, Foothill, and College of San Mateo student bodies are very diverse. Most students are from local cities, although over 4,000 students come from more than 50 countries. Celebrating cultural and ethnic diversity is part of each of the colleges' philosophies and is reflected in their course materials and at campus events and gatherings.

10.3 PAU, De Anza, Foothill and the College of San Mateo College Campus Security

PAU complies with the Safe and Drug-free Schools and Communities Act. PAU also annually reports crime and arrest statistics, as required by the Crime Awareness and Campus Security Act of 1990. The federal law known as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act) requires "Campus Security Authorities" to report campus crime statistics to the Department of Education on an annual basis.

These documents are published in accordance with Section 201 P.L 101-542 as amended by P.L 102-26 the "Crime Awareness and Campus Security Act of 1990." Campus Security Statistics are available at:

San Mateo Community College District http://smccd.edu/accounts/smccd/departments/publicsafety/annualreport.shtml
